Experience

IT Test and Erasure Technician, Foxway UK - March 2023 - Present
At Foxway I am responsible for securely erasing data from computers and electronic devices, ensuring compliance with industry standards and client requirements. Additionally, I was responsible for grading assets, evaluating their condition and value for resale or recycling purposes.

Junior Matchmove Artist, Cinesite — November 2021 – December 2022
During my time at Cinesite I gained valuable experience using software such as 3DEqualizer4 and Maya to recreate the movement and camera positions of footage in a 3D environment. I had the opportunity to work on a variety of projects and learn from more experienced members of the team, which provided me with a strong foundation in tracking and an understanding of the VFX production process.

3D DMP for VFX - Intern, The Focus Academy — September 2021
I completed a three month online course in 3D DMP at Technicolor's The Focus Academy. I gained valuable skills in matte painting, compositing, creating clean plates, and 3D modeling.

Capture Assistant Intern, Clear Angle Studios — July 2021
During my internship at Clear Angle Studios, I had the opportunity to learn about how they scanned actors and how to capture on-set VFX data such as lighting reference and panoramas. I also helped scan props for upcoming productions.

Video & IT, Suffolk Latch Company; Clare, Suffolk — 2014 - July 2021
During my time at Suffolk Latch Company, I was responsible for uploading new content to our Shopify website and coordinating with our web developers when needed. I maintain a web server hosting our eBay shop and managed our DNS when changes needed to be made. I also provide IT support remotely and in-person and maintain our Office 365 site.

Education
Norwich University of the Arts — BA VFX, 2017-2020, 2:1
West Suffolk College — Media Production Extended Level 3, 2015-2017

Skills
- Knowledge and experience with Linux
- 3D software such as Maya and Substance.
- Learning Python, have made some basic tools so far.
